INSURANCE CLAIMS: IF YOU ARE PERSONALLY FILING A CLAIM for reimbursement from a third-party payer (e.g., insurance company, employer group, etc.) for the purchase of this product, your claim must be based upon your payment less the amount of all rebates received, including this rebate. Important Information For Contact Lens Wearers: ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye care professional. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye care professional immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a Patient Instruction Guide, call 1-800-267-5098 or visit www.acuvue.com/en-ca/.

Important Information For Contact Lens Wearers: ACUVUE® ABILITY® 1-Day Soft Therapeutic Lenses for Myopia Management are available by prescription only for the correction of myopia (while the lenses are worn) and may slow the progression of myopia in children (7-12 years old). An eye care professional will determine whether these contact lenses are right for you or your child. Although extremely rare, serious eye problems including vision loss and blindness can develop while wearing contact lenses. To help avoid these symptoms, follow the wear and replacement schedule provided by your eye care professional. Do not wear these contact lenses if you or your child has an eye infection, or experiences eye discomfort, excessive tearing, vision changes, redness, or other eye problems. If one of these conditions occurs, remove the lens and contact your eye care professional immediately. Due to the optical design of these lenses, under certain circumstances, some patients may experience visual symptoms. These lenses will provide vision correction while worn, but the vision quality may not be as clear as with conventional soft contact lenses. Patients should exercise extra care if performing potentially hazardous, vision demanding activities. For more information on proper wear, care and safety, talk to your eye care professional and review the Patient Instruction Guide, call 1-877-334-3937, option 4, or visit www.clearvisionforyou.com/en-ca/.
